

ATLANTIC FAMILY DENTAL • TEAM MEETING

One Team. One Passion. One Path to Success.

One rhythm to grow, check in, and see how we're doing, together.

Align • Shift • Keep

TODAY

Our agenda

- 1 Team check-in, welcome new staff
- 2 Team department updates
- 3 What the team told us in this month's check-in
- 4 The ASK Profile, and teeing up Thursday
- 5 Last month's numbers & goals ahead
- 6 Celebrations, wins & next steps

Align attitude • **Shift** actions • **Keep** results

ALIGN • WHY WE'RE HERE

Caring • Curiosity • Coachability

Caring

for our patients & each other

Curiosity

ask, learn, get better

Coachability

turn feedback into action

Our focus never changes: **standards of care** and a **consistent patient experience**.

“Every patient gets the opportunity to experience the best of what AFD has to offer, every time.”

TEAM CHECK-IN

Welcome

Quick round, how's everyone doing? Then let's talk as a team.

THIS MONTH'S QUESTIONS

- 1 Think of a time this month you assumed you knew why someone did something. What happened when you checked?
- 2 What is one thing at work you have been guessing about that you could simply ask?

DEPARTMENT SNAPSHOTS

Each team, a quick update

Front Desk	2 min
Hygiene	2 min
Dental Assistants	2 min
Doctors / Coordinators	2 min
The A Team	2 min

Wins, what's working, what needs help, the usual monthly snapshot from each department.

What the team told us, highest to lowest

October check-ins in so far: 5 of 17 active staff. Aggregates only, no names, no individual scores.

5 OF 17, DIRECTIONAL ONLY

Scale 1 to 5, average of the team's own answers. Small sample, so read it as a direction, not a verdict. Team picture only.

TRUST & ASSUMPTIONS • 10 MINUTES

Ask first.

Think of a time this month you were sure you knew why someone did something, and later found out you were wrong.

Quick show of hands. No stories required.

Trust breaks when we fill a gap with an assumption instead of a question.

TRUST & ASSUMPTIONS

Three places assumptions hide

In our thoughts

“She is late again, she does not care.” We decide the reason before we know it.

In our words

“Everyone knows the new patient flow.” We skip saying it because it feels obvious.

In our actions

We reschedule, skip a step, or cover for someone without asking, and it lands wrong.

About habits, not people. Optional: a 60-second story of assuming the worst about someone, then learning to ask.

TRUST & ASSUMPTIONS

The ASK practice

- 1 **Pause.** Notice the story you are telling yourself.
- 2 **Ask.** “Help me understand what happened.” or “What did you need from me?”
- 3 **Check.** Say back what you heard before you respond.

Pairs, 90 seconds: one describes a small, real work moment, the other only asks and checks.

TRUST & ASSUMPTIONS

Our team agreement, next 30 days

- 1 Ask before assuming.
- 2 Say the obvious out loud.
- 3 Check back before acting.

The monthly check-in is where we say what is true, not what we think others want to hear.

What is one assumption you will drop this week?

TREATMENT ACCEPTANCE

Dr. Mitchell / Dr. Yassa

Add-ons: Curodont \$3,870 and Arestin \$2,163. Collection rate = collections / gross production. Provider-level figures are marked to confirm. On-time: late means a first punch of the day after 8:10 AM (expected arrival 7:50 AM). 172 of 183 worked days on time, from the September time cards. One part-time team member is not counted. Vacation days taken: 11.

ADD-ON SERVICES · SEPTEMBER 2026

Add-ons: what we added on

\$3,870

CURODONT

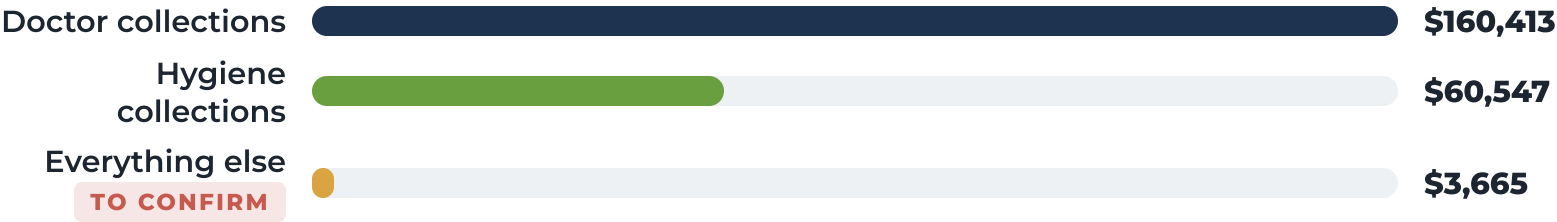

\$2,163

ARESTIN

Add-on total so far \$6,033 (two services). Goal for add-ons is not set yet, see the goals slide.

WHERE THE MONEY CAME FROM • SEPTEMBER 2026 • KEEP

The month, three simple buckets

\$224,626

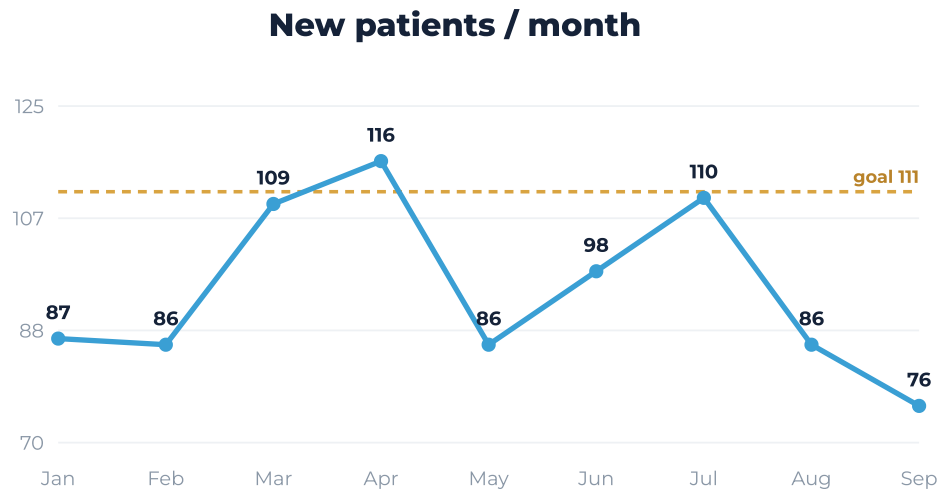

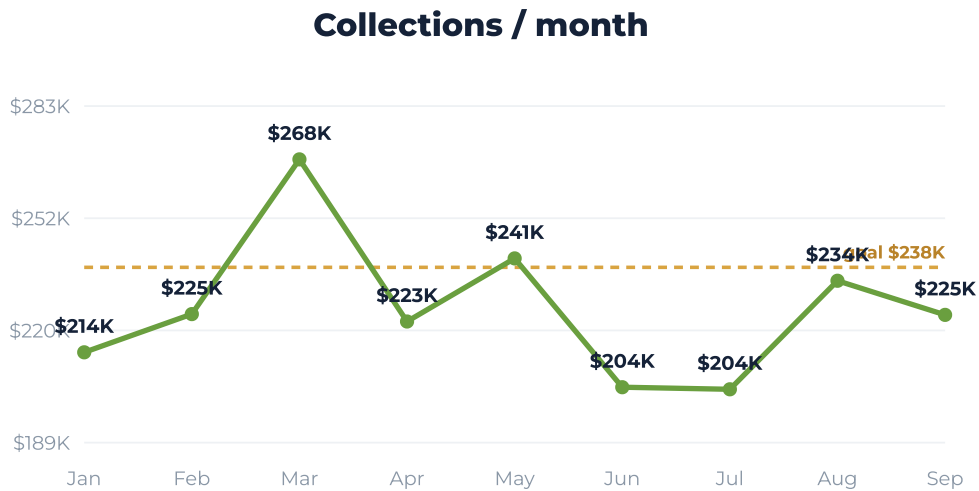

TOTAL COLLECTED

94% of \$238K goal

Everything else: TO CONFIRM. This is the gap between the stored September collections total (\$224,625.52) and the five providers' collections added up (\$220,960.48). Its source is not yet confirmed.

TRENDS · JAN TO SEP 2026 · KEEP

Where we're trending

Dashed line = goal. New patients: Jan to Jul from the prior deck, Aug 86, Sep 76.

BY PROVIDER • SEPTEMBER 2026

How each provider's tracking

Dr. Mitchell	Dr. Yassa	Tay	Marian	Arika
Production \$108,492	Production \$76,181	Production \$25,868	Production \$21,172	Production \$29,031
Adjusted \$92,459	Adjusted \$68,047	Adjusted \$24,157	Adjusted \$20,367	Adjusted \$32,953
Collections \$94,071	Collections \$66,342	Collections \$21,484	Collections \$15,794	Collections \$23,270
Tx acceptance 55%	Tx acceptance 57%			

TO CONFIRM At the time of reporting, provider collections total \$220,960.48 against reported collections of \$224,625.52; the \$3,665.04 difference is being reconciled with the office. Provider production adds up exactly (\$260,744.45). One provider's adjusted production is higher than gross production, which is also being confirmed.

Source: September Monthly Numbers form and the final September spreadsheet. Treatment acceptance is the form entry (Dr. M 55%, Dr. Y 57%).

YEAR TO GOAL · 2026 · KEEP

Our climb to the annual goal

YEAR TO DATE

\$2,037,400

ANNUAL GOAL

\$2,856,000

Hit the annual goal, the team earns
a team cruise. 🚢

71%

We're 71% to the annual goal and 75% through the year. Our gap is \$818,600, about \$272,867/month the rest of the year closes it. We just have to keep working on hitting goal, every month, together.

Consistency is how we get there. The SOPs we tighten this quarter show up right here next month.

Your morning huddle, on the screen

One quick form each morning, and the huddle dashboard is ready when you walk in: today's numbers, the schedule, everything the team needs to start the day.

Lives on your phone, one form, someone enters the numbers, the schedule photo gets uploaded, tap to view. Goals are already set, no guessing.

A sample screen, not final, tell us what you'd want on it
